The educational institutions should produce graduates to cope with technological development. Thus, to overcome the requirement, it is mandatory to shift from traditional education

system to Outcome Based Education (OBE). Outcome based education is defined as an approach to education in which decisions about the curriculum are driven by the outcomes the students should display by the end of the course- professional knowledge, skills, abilities, values and attitudes rather than on the educational process. The OBE comes in the form of competency-based learning standards and outcomes-based quality assurance monitoring. OBE is being recognized as the most important educational component of societies with knowledge-based economy. OBE is designed to achieve the predefined learning outcomes.
