## About the Webinar

The Covid-19 pandemic again proves the importance of science and interconnection of different branches of science. This webinar- "Chem-Conclave 2020" is about bringing various spheres of science (especially chemistry) together and looking forward to see advantages of their inseparability. The main motive of this webinar is to sprinkle the knowledge of several areas of chemistry like nanoscience, medicinal chemistry, analytical methods, organic chemistry and the relationship between us and chemistry on everybody instead of spraying hand-sanitizer.
